#### CAMP SITES IN THE SOUTH.

They Are to Be the Best Possible,

Regardless of Expense. ASHINGTON, September 30.-General hwan has been for some time past incting sites for camps in the South, and now at the War Department, preparing report. He discussed the matter of the briefly with General Corbin to-day, was informed by that officer that the of the President and the Secretary sites selected for camps, without re-to whether they were offered by the sard to whether they were offered by the series of the community or whether they were paid for by the government. The War Department has the authority to select and condemn ground for camps, and if it is found that desirable locations can be secured in this way, they will be selected without regard to expense. The department is determined to have the flow camps the very best that can be found in the South.

## THE WEEK'S TRADE.

BUSINESS PAILURES PEWER THAN IN MANY YEARS.

CHANGES ALL FOR THE BETTER. An Exception is the Fall of Cotte

a Century-Pig-Iron Firm Every-

NEW YORK, September 30 .- Messrs. R. G. Dun & Co., in their weekly review of trade to-morrow, will say:

Failures in September have been about \$6,700,000, and for the quarter about \$22,-875,006. No report covering the exact month or quarter is possible this week for a journal which must go to press on Friday, the 30th, but the returns indicate a smaller aggregate of failures than n any other month in many years, except in August of this year, and smaller for the quarter than in any other quarter since 1892. In fact, except in one quarter of that year, no other appears to have shown a smaller aggregate, unless more than ten years ago, when the volume of solvent business was very much smaller than it is now. Evidently the complete returns to be given next week will show that the state of business is in that respect more satisfactory than it has ever been, unless in one quarter of 1892.

THE FALL IN COTTON Changes are all for the better, except in the fall of cotton to the lowest point for fifty years, and even the lowest prices of 1848, considering differences of qualities, were perhaps not lower than the prices this week. If there were not to hand commercial and mill stocks upon hand commercial and mill stocks un-usually large, or if manufacturing were more successful, an early recovery might seem probable, but the heavy fall in the price of material has affected the demand for goods, causing buyers to expect still lower prices for them, al-though after the decline last week, goods

now average lower than ever before.
While the stagnation in wool continues, with sales even smaller than in the same month of the panic year, 1836, numerous mills have started temporarily, in order to get out sample pieces. There has been no quotable decline in recol has been no quotable decline in wool, and scarcely any in goods, the recent reduction having stimulated a larger

Nickel is higher, at 3.50 3-8 cents, and tin-plates unchanged, in spite of the enormous increase in production, though the desire to push smaller works into the consolidation, which now commands 114 mills, is said to be the cause of the temporary decline.

#### THE STATE FIREMEN.

Their Tournament at Newport News Lexington's Triumph.

NEWPORT NEWS, September 30 (Special.)-The last day's programme of twelfth annual convention of the Virginia State Volunteer Firemen's Association consisted solely of reel con-tests. While the teams which entered made remarkable runs, it must be said that the programme of contests was not what the people ex-pected, as the first three numbers on the list were stricken out, owing to the absence of competitors.

The Lexington Fire Department team carried off the honors of the day, winning all three of the real contests.

The first contest on the programme was a prize drill, the prize being \$25.

There were no entries.

A hook-and-ladder contest for a prize of \$50 was next, but there were no teams third number was an interstate

reel contest for a prize of \$50. Neither were there any entries in this race. The reel contest for association teams The reel contest for association teams only was started at noon. The first prize was \$20, and the second \$25. The track was 225 yards, and the race was run on West avenue between Twenty-fifth and Thirtieth streets. Each team competing was required to start on a given signal, pull the hose-cart to the plug, and make connection, and then break the hose at 225 yards and attach the nozzle. Suffolk was the first to run, and cleared the was the first to run, and cleared the course in 1:13. Roanoke followed, and when the team attached the nozzle in 57 seconds its friends cheered the feat to the echo. Lexington ran last, and when the team filed out of the Hotel Warwick in athletic costume and sprinting shoes the Roanoke firemen raised objection

claiming that this team should be re-quired to run as firemen and in firemen's uniform, and not as college athletes. As there were no restrictions made be fore the races, the Judge decided to allow he entry, and the Lexington team trot ted up West avenue to the starting point.
The pistol was fired and the young sprinters dashed down the avenue to the goal.
On reaching Twenty-sixth street, the foreunner opened the plug and quickly made connection, and the reel was swiftly carried to the finishing point, where the nozzle was attached, the whole requiring but

forty-seven seconds.

While the judges would not give out the time, it was apparent to all who had watches and followed the races that Lex-ington came out ahead, and the Lexing-ton firemen gave their team men an ova-

day, the world's reel contest for a prize of \$250. Roanoke and Suffolk refused to enter, and Lexington won the large prize

n a run of forty-seven seconds. The Board of Judges decided late this vening that Lexington reel team was ot entitled to the first prize of \$250 in the world's contest, and refused to awar the money. The judges decided that the Lexington team used four men at the plug, and the rules of the Virginia Volun-teer Firemen's Association plainly states that in all reel contests only two men that in all reel contests only two mershall be used to make connection with the plug. Captain V. E. Funkhauser, of the Lexington team, this evening filed a protest with the Citizens' Executive Committee, claiming that it violated no rules and is entitled to the prize money. Cap tain Funkhauser will also protest agains the judges' action to the association

### CALL FROM SOUTH CAROLINA.

Camp at Columbus and Hospital at

Charleston Desired. WASHINGTON, September 30 .-- Senator McLaurin, of South Carolina, and a delegation from that State, called on the President to-day, to urge that a permanent army camp be located at Columbia S. C., and that an army hospital be established at Charleston. It was also asked that Charleston be made the point of debarkation for the troops to be dispatched to Cuba and Porto Rico. The President listened very attentively to the claims in behalf of the State, and promised to give them consideration. COMPLIMENT TO SOUTHERNERS.

The President, in acknowledging what was said to him by the delegation, took occasion to pay an eloquent tribute to the devotion and patriotism of the soldiers of the South, and said he had not heard a murmur or complaint from that

Markets Extremely Dull.

NEW YORK, September 30,-The stock narket displayed a rising tendency for a brief interval to-day, under the influence of higher London prices and a moderate ommission-house demand. Support was also extended to the Specialties, and for the half hour succeeding the opening prices gathered headway under lively bidding. This condition of affairs, however, proved to be only a flash in the pan. A drive against the Rubber stocks met with unusual success, the common losing 61-2 and the preferred 6. The fact is that the holders of industrial stocks are pretty ervous over the operations of the bear cliques, and when a raid is made stop-loss orders come tumbling out on every 1-2 offered. There were no developments to account for the slump in Rubber, but the 'street" was ready to advance plausible explanations. NEW YORK DRY-GOODS MARKET.

NEW YORK DRY-GOODS MARKET.

NEW YORK, September 29.—The market
for dry-goods is comparatively without
feature. Both cottons and woollens were
quiet in all grades. The latter were the
subject of some perfunctory trading,
chiefly in worsted lines. But a small number of reorders for light-weight goods
were recorded. Cotton continued duli in
nearly all grades. CHICAGO PRODUCE MARKET.

CHICAGO, September 30.—Extreme dulness was the prominent feature of today's trading in all the grain and provision markets. Confirmation of reports of heavy Russian offerings, large receipts and weak cables were influences in wheat, which closed at a 1-te, decline. \*Corn and oals closed at practically unchanged oats closed at practically unchanged prices. The following are the total net receipts at all ports since September 1, 1898; Galveston, 28,897 bales; New Orleans, 162,731 bales; Mobile, 22,589 bales; Savannah, 115,199 bales; Charleston, \$4,13 bales; Wilmington, 43,734 bales; New York, 1,760 bales; Baltimore, 162 bales; New York, 1,760 bales; Brunswick, 3,769 bales. Total, 68,690 bales. Fuctuations in cotton futures to-day were quite violent at times, with the market feverish during the morning and early afternoon. Trading was spasmodic, with aggregate transactions the largest, perhaps, in several weeks. Prices declined 304 points, systematically, at the opening, futures at Liverpool having shown weakness. Immediately following the call our market became unsteady, under estimates for a heavy movement of cotton at the ports, as well as the more important interior towns. Liquidation set in on a moderate scale, and the more confident bears materially increased their obligations on the short side, belleving that the downward turn toward 5c, cotton was at hand. A few scattered selling orders were secured from the South and abroad, which added to the general weak-ness.

While sales of 22,000 bales spot at unchanged prices in the Liverpo

orders were sective from the South and abroad, which added to the general weakness.

While sales of 22,000 bales spot at unchanged prices in the Liverpool market were considered liberal, a decline of 2 to 3½ points in futures more than offset this factor. Rumors that the Central Gulf States had been visited by a veritable cloud-burst during the past twenty-four hours, later corroborated by official weather bulletins, led to a change of front, and by midday the bull crowd had succeeded in regaining the early loss, and in scoring a point or two in addition. Shorts covered on an extensive scale, and for a time even the stronger bears showed great uneasiness. According to the bulletin on 'Change, 7.50 inches of rain had fallen within the past twenty-four hours at Louisiana, 1.70 in Waynesboro', Miss.; 1.60 at Mobile, 2.6 at Warren, Ark.; 1.50 at Forest City and Brinkley, Ark.; 1.50 at Memphis, 1.62 at Cairo, 1.80 at Vicksburg, and 1.40 at New Orleans. Showers to moderate rains were also noted in other sections, from Texas to the Carolinas.

The market again eased off in the afternoon, under realizing, the latter being he Carolinas. The market again eased off in the after-

The market again eased off in the afternoon, under realizing, the latter being
due to estimates for another heavy movement at all points to-morrow. Trading
was less active, although the usual spurt
occurred just at the close. The market
nnished the day barely steady, with
prices 1 to 2 points net higher.
